SUMMARY

Entry-level Data Analyst who has independently built Power BI dashboards, Excel data models, and SQL-based analyses across retail, marketing, and public safety datasets, grounded in a background in Geology.

SKILLS

Hard Skills: Power BI, Excel, Power Query, DAX, Power Pivot, VBA, SQL (MySQL, SSMS, PostgreSQL), Statistical Analysis (ANOVA), Data Modelling, Data Cleaning, PowerPoint

Soft Skills: Proactive, clear communication, analytical thinking, attention to detail, root-cause problem-solving

PROJECTS

Perfume Inventory Management System (Featured) | Link: github.com/Anetoh-Olivia/perfume-inventory-management-system

Rebuilt a perfume retail business's inventory process in Excel, replacing manual record keeping with connected Products, Sales, Purchases, and Inventory tables, VBA-automated entry forms, and a DAX-powered dashboard tracking revenue, profit, and low-stock risk.

Keywords: Excel, Power Pivot, DAX, VBA, Inventory Management

Global Retail Sales Analysis

- Investigated a global electronics retailer's five-year revenue trajectory, which grew from \$6.4M to \$17.3M between 2016 and 2019 before falling below \$1M by 2021
- Cleaned and modelled six relational tables in Power Query, building a star schema in Power Pivot with custom DAX measures to surface early warning signs behind the collapse

Maven Marketing Customer Behaviour and Revenue Analysis

- Analysed a dataset of 2,237 customers to uncover campaign response patterns, product performance, and drivers of web purchases
- Restructured raw data into a star schema and built DAX measures powering a 5-page interactive Power BI dashboard

Workplace Bias & Career Progression in UK Education Leadership

- Analysed survey responses from 35 UK education leaders to test whether gender, age, and experience shape perceptions of workplace bias and career progression
- Cleaned and coded responses, built composite scores, and ran five ANOVA hypothesis tests, presenting results in an interactive Excel dashboard

EXPERIENCE

Aces Limited (Accelerated Compact Energy Solutions Limited) — NYSC Corps Member

Rivers State, Nigeria | 2026 – Present

- Maintain accurate inventory records in Microsoft Excel for day-to-day business operations
- Apply consistent data entry and spreadsheet organisation practices to keep records current and error-free

EDUCATION

BSc Geology — University of Port Harcourt, 2019 – 2025
